## EDUCATION

### Bachelor of Technology

North Eastern Regional Institute of science and technology(NERIST) Jul 2018 - Jun 2022

8.40 Cgpa

Computer science and Engineering(CSE)

### Intermediate

North Eastern Regional Institute of science and technology(NERIST) Jul 2016 - Jun 2018

7.66 Cgpa

Base Module - Science

## SKILLS

- Programming Lang: Java, Groovy, C
- Tech: Grails, Model-View-Controller (MVC), HTML, CSS, SQL, Data Structure and Algorithms (DSA), Git, jQuery, JavaScript (Basic), Groovy Servers Pages (GSP), Java Server Pages (JSP), Hibernate - (ORM & JPA), Docker
- Soft Skills: Quick Learner, Adaptable, Logical Thinking, Team Player, Leadership, Communication, Problem Solving
- Software/Tools: Postman, SourceTree, Jmeter, MS Word, MS Excel, MS PowerPoint, Eclipse IDE, Visual Studio IDE, OS, CN.

## EXPERIENCE

### Analyst

Capgemini Technology Service India Limited. Mar 2022 - May 2022

Intensively trained in Java, demonstrating strong proficiency in object-oriented programming and practical application in diverse projects. Skills in HTML, CSS, and Basic JavaScript to create interactive and responsive UI for web applications, focusing on enhancing the overall user experience. Soft Skills Excellence: Developed effective communication, teamwork, and interpersonal skills through comprehensive soft skills sessions.

### Member of Technical Staff

Mindstix Software Labs. Mar 2023 - Present

Development of scalable backend solutions using Grails with Groovy, showcasing expertise in MVC framework, ensuring optimal performance and reliability as a full SDLC, and contributing to the successful delivery of high-quality products. Expertly designed and maintained RESTful APIs, optimizing FE-BE communication for seamless user experiences. Effectively troubleshooted and debugged, resolving critical issues to maintain system integrity.

## PROJECTS

### Xinn Elevator Solution

Tech Stack : Grails, Groovy, MVC, MySQL, Postman, RESTful APIs, Apache Tomcat, HTML, CSS, Postman, Jmeter.

A cutting-edge elevator management application on MVC framework, and Postman for rigorous testing, complemented by MySQL for DB. Successfully executed the end-to-end implementation of a sophisticated elevator management system. The application empowered the users to effortlessly request lifts and access the elevator's real-time status updates, including their current floor positions.

### LightCamerAction.com

Tech Stack: Spring Boot, MVC, Spring Security, MySQL, RESTful APIs, Apache Tomcat, Postman, HTML, CSS, Kafka.

A movie booking system that included features like view, update movie(s), view actors, add favorite for actors, add movie to watchlist. It also supported rating a movie on multiple aspects like story, value for money, music/songs etc. The application supported payments via QRs, where QRs were dynamically created.

## **Sudoku Game**

**Tech Stack :** Java, OOP's, Java Swing, JFrame.

A Sudoku game written in Java and GUI is implemented with Swing, which generates its own games on the fly.

## **Simple Search Engine**

**Tech Stack:** HTML, CSS, JSP, Java, Java Servlet, Apache Tomcat, MySql, Web Crawler.

Simple Search Engine is a Java application developed using Servlets, SQL Server, and Oracle database. It can include features like a search bar, which displays the top few websites related to the keyword searched.

## **My portfolio website**

**Tech Stack :** HTML, CSS, JavaScript.

Complete Responsive Personal Portfolio Website containing my personal information, educational detail and few project samples.
